Pittsburgh Tournament

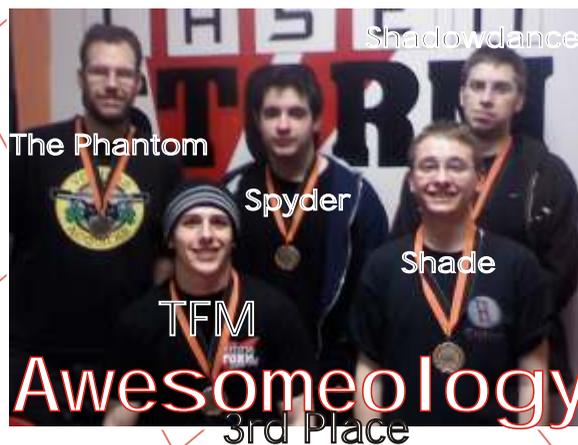

Round robin action!

This was a first for us at LSP. Normally all tournaments are double elimination. Sometimes there are seeding rounds and then the double elimination. This time it was just a Round Robin. So every team got to play against every other team. This makes things a lot more fun for those who would normally have lost twice and went home.

As the evening progressed it became apparent that three teams were doing exceptionally well. "Awesomeology" came up against "Justice", and though they had hoped their strategy would prevail, "Justice" emerged victorious.

Now there were 2 teams remaining that had zero losses. The winner of their game was guaranteed first place, the loser was stuck with second. "Justice" was used to facing their regular rivals, team "Space Shuttle". They were confident that their regular practice sessions gave them an edge over the reigning Regional Champs. The game was very close, with "Justice" in the lead with 6 minutes left. Everyone was staying low, for even a single hit taken would be enough to lose the tournament. Suddenly "Space Shuttle" broke the ice with a base hit and everyone in the whole arena was now active and moving around like crazy. After a few more base hits it was in the bag for "Space Shuttle", who remains the current Regional Champions!

Next tournament is THIS MONTH!!
Saturday night, April 11th at Family Bowlway in Butler, PA; 6pm to Midnight.
Sign up before April 4th and get \$5 off registration!

Leagues

This season has been a learning experience for our captains. This season, the captains were selected increase their experience level. It is part of our process to create seasoned captains from regular players. Everyone has to start somewhere and our leagues provide a great opportunity to enhance the leadership skills.

Several players were not able to complete the league season. However, these players were all replaced by players waiting patiently on the alternates list. Thanks to all those alternate players who helped fill in the gaps!
